Muhammad Ahsan Amin

VP of Research & Development | Engineering Leader & AI Coach

✉ mahsanamin@gmail.com ☎ +92 300 4125622 Lahore, Pakistan

Core Competencies

Leadership & Strategy

Engineering Leadership
AI Incubation
Team Mentorship
Product Strategy

AI & Modern Development

Vibe Coding
LLM Integration
Prompt Engineering
AI Best Practices

Technical Expertise

Java
Python
Node.js
Spring Boot
Django
Redis

Cloud & Infrastructure

AWS
GCP
Docker
Kubernetes
Terraform
Kafka
RabbitMQ
Microservices
NGINX
Jenkins
CloudWatch
CDN

Key Achievements

- ⍰ Led development of Tapjoy SDK (110M+ devices worldwide)
- ⍰ Tech lead for Tap Fish 2 (#1 iOS App Store, 10M+ downloads)
- ⍰ Architected Disney's Big Hero 6 backend (2M+ daily users)
- ⍰ Pioneering AI adoption at Wego through structured programs
- ⍰ Built and scaled platforms serving millions globally
- ⍰ Trained and mentored 50+ engineers across multiple companies

Education

Bachelor of Science in Computer Science

University of South Asia, Lahore

2001 – 2005 | CGPA: 3.19/4.00
Major: Web Application Development

Professional Summary

Engineering leader and AI coach with 20 years of experience building scalable consumer platforms across travel, adtech, and gaming. Currently VP of R&D at Wego, leading Growth and User Services platform teams while pioneering AI incubation and vibe coding practices to empower engineering teams.

Built global products used by millions: Tapjoy SDK (110M+ devices), Tap Fish 2 (10M+ downloads, #1 iOS), Disney's Big Hero 6 (2M+ DAU). Expert in cloud-native systems, distributed architectures, and modern development practices, with a passion for mentoring engineers and delivering scalable solutions.

Professional Experience

VP Research & Development

Wego.com

May 2021 – Present | Lahore, Pakistan

- **Growth & User Services Platform:** Lead platform teams building personalization engines, authentication systems, and user-centric services enhancing conversion rates for millions of users
- **AI Incubation Leadership:** Pioneer AI adoption through vibe coding workshops, hackathons, and structured learning programs, training 40+ engineers with 25% productivity improvement
- **Engineering Operations:** Oversee all software development while maintaining hands-on involvement in architecture and coding decisions
- **Technical Mentorship:** Establish AI best practices, LLM integration standards, and modern development workflows across engineering teams

Lead Software Developer / Consultant

Creadits.com (Singapore)

Mar 2015 – May 2021 | Remote

- **Platform Architecture:** Architected distributed advertising platform serving Facebook, Snapchat, and Google advertisers globally, processing millions of ad creatives for 500+ clients
- **Backend Leadership:** Led microservices development using Laravel, Java Spring Boot, Redis, Cassandra, achieving 40% performance improvement through optimization
- **Team Development:** Key technical trainer and knowledge transfer leader for growing engineering team

Technic\al Server Lead

Gumi Asia (Singapore)

Apr 2014 – Mar 2015 | Singapore

- **Disney's Big Hero 6 Backend:** Led architecture for puzzle-based MMORPG supporting 2M+ daily active users with 99.9% uptime
- **Scalable Infrastructure:** Designed sharded database architecture and CI/CD pipelines, reducing content deployment time by 75%
- **Technical Innovation:** Implemented metadata serving system and distributed caching for optimal performance

Staff Software Engineer / Technical PM

Gameview Studios (DeNA Japan)

Oct 2008 – Oct 2013 | Lahore

- **Tap Fish 2 Leadership:** Tech lead for #1 iOS game achieving 10M+ downloads and sustained top-10 ranking for 18+ months
- **Tapjoy iOS SDK:** First developer creating industry-standard monetization SDK scaled to 110M+ devices worldwide, generating millions in revenue
- **Platform Development:** Architected reusable game frameworks reducing development time by 60%, trained 50+ engineers
- **International Collaboration:** Direct communication with Silicon Valley and Japan clients for requirement gathering and delivery

Software Engineer

Softech Systems

May 2005 – Dec 2007 | Lahore

- **Unit Management System (UMS):** Developed comprehensive mutual fund management system deployed across 8 major Pakistani AMCs, standardizing industry operations
- **Client Solutions:** Built reporting engine, automated processes, and client-specific customizations for ATLAS, ABAMCO, NAFA, ASKARI, HABIB-AMC
- **Technical Foundation:** Gained expertise in enterprise systems, database optimization, and client relationship management
